**Re: WT Docket No. 05-314  
Certification of Centennial Communications Corp.  
on Compliance with the E911 95% Penetration Requirement**

Dear Ms. Dortch and Mr. Campbell:

Pursuant to the FCC's *Order* issued in WT Docket No. 05-314,<sup>1</sup> Centennial Communications Corp. ("Centennial") hereby notifies the Commission that Centennial is in full compliance with Section 20.18(g)(1)(v) of the rules. On November 3, 2005, Centennial filed a request for a limited waiver/extension of Section 20.18(g)(1)(v), which required CMRS providers utilizing handset-based E911 Phase II solutions to achieve a 95 percent Global Positioning Satellite ("GPS") capable handset penetration rate by December 31, 2005. In the January 5 Order, the Commission denied Centennial's request and imposed reporting and notification obligations on Centennial until such time as Centennial achieved a 95% handset penetration rate in Puerto Rico.

---

<sup>1</sup> FCC 06-65, released January 5, 2007, ¶ 19 (*hereinafter* "the January 5 Order").

Page 2

As previously reported to the Commission in this docket,<sup>2</sup> on July 21, 2006 Centennial advised the FCC that it had reached a 95.55% GPS-capable handset penetration level in Puerto Rico as of July 18, 2006. Consequently, there is no need for Centennial to file monthly handset penetration progress reports as required by the Commission in its January 5 Order. In addition, based on conversations with FCC staff, Centennial understands that this certification of compliance with Section 20.18(g)(1)(v) is effective retroactive to Centennial's prior notification, which was filed with the Commission in this docket on July 21, 2006.

### **Affidavit**

I hereby declare under penalty of perjury that the information provided in this response is true and accurate to the best of my knowledge, information and belief.

If you have any questions regarding this report, or require additional information, please contact me.

Sincerely,

/s/ William L. Roughton, Jr.
